ABSCESS

Belladonna 3x

The parts are bright red, the swelling appears suddenly and is rapid, the pus developing with lightning-like rapidity. There is a throbbing sensation, which is intense and sudden, and the pains are apt to cease as suddenly as they appeared. Acute abscesses.

Hepar Sulph. 3x

When there are chills indicating beginning of suppuration, with throbbing and sharp sticking. Pains; given low in threatening suppuration it favors it, but given high it will often abort it.

Silicea 12x

In conditions where the suppuration continues and the wound refuses to heal; the process is an indolent and a sluggish one. The discharge is apt to be thin and watery.

Promotes suppuration and brings the suppurative process to maturity. *Calcarea sulphurica* checks suppuration and promotes healthy granulation. It also lacks the fetor of silicea.

Mercurius Viv. 6x

It is indicated after *Belladonna*, when pus has formed and needs to be evacuated. It favors the rapid formation of pus. Glandular abscesses especially call for *Mercurius*. There is intense shining redness, with throbbing and stinging pains.

Merecunus and Silicea.

Do not follow each other well. Hence must be carefully distinguished.

of depraved conditions of blood, is an antiseptic, antifermentative and antizymotic.

Begin made from the fresh plants it contains the curative action of the drugs in their full power. It is given in teaspoonful doses.

Elixir Echinacea Compound

An elixir containing *Echinacea* and *Baptisia* made from the fresh growing plant.

Echinacea Cerate

Made with a purified petroleum base from the fresh plant. An excellent vehicle for the administering of Echinacea from directly to the affected part.

ACNE

Sulphur 12x

The skin is harsh and rough; the acne is principally on the face and is associated with comedos. Great aggravation from water.

Sanguinaria 3x

Especially indicated in women who have scanty menses and irregular circulation of blood.

Ledum 3x

Red pimply eruption on the nose; acne in brandy drinkers.

Antim. curd., Aurum, Phosphoric acid and Kali brom. remedies for acne due to sexual excesses, masturbation, etc.

Nux Vom. 3x

Indigestion due to rich food or dissipation.

Hsgh Blood Pressure*Crataegus* 9 5 drops.*Passiflora* 8 5 drops.*Glonoïn.* 1-200 grain.**APOPLEXY****Aconite 3x**

Full pulse, arterial excitement, numbness and tingling.

Arnica 3x

When there is aching soreness all over the body. Bed sores form readily. Paralysis, especially on left side, full and strong pluse and stertorous breathing.

Belladonna 3x

The effusion is attended with symptoms of violent congestion; if given early may be of use. Pupils are dilated, face flused, throbbing of carotids.

Gelsemiiim 3x

In threatened apoplexy with a general relaxed state of the system, weakness and trembling; muscles refuse to obey the will.

APPENDICITIS**Belladonna G or 2x**

Pin in ileo-cecal region. Cannot bear slightest touch; worse by jar, motion of bed or turning of body. Patient lies on back. Fever and general symptoms, such as flushed face, etc. are present.

StiUingia 3x

Is useful in syphilitic affections of the long bones.

BRONCHITIS**ACONITE 2x-6x**

At the commencement when due to checked perspiration. It mitigates the dry cough, lessens the fever and prevents extension of capillary congestion.

Belladonna 3K

There is ticking in the larynx and a dry, hacking cough, which is paroxysmal; dryness and tightness in the upper part of the chest, worse evenings and at night; the larynx is sore and hot.

Natrium Muriaticum 12x

In chronic bronchial catarrhs, winter coughs and asthma, where there is a profuse secretion of mucus.

Bryonia 9-3x

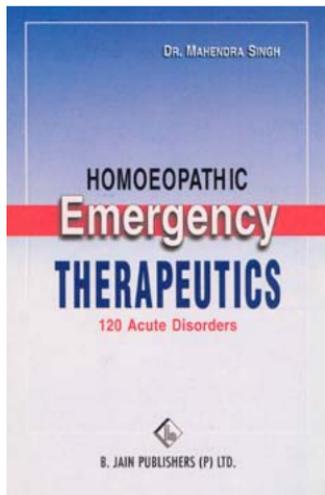

Pressure over sternum, great dyspnea, dry cough, seeming to start from stomach, worse after a meal; pains in sides.

Garbo Vegetables 3x-6x

Evening hoarseness, with rawness and scraping in the larynx and trachea; oppression of chest; bronchitis in old people when there is a loose rattling in the chest on coughing or breathing. Profuse yellow, fetid expectoration; bronchial hemorrhage.

Antimonium Tart. 6x

Fine rales, but very little cough, increased dyspnea, weakness and drowsiness; the chest seems full of mucus, but they cannot cough it up.
