Preface

Diospyros kaki Creveld, a homeopathic remedy, was developed three and a half years ago.

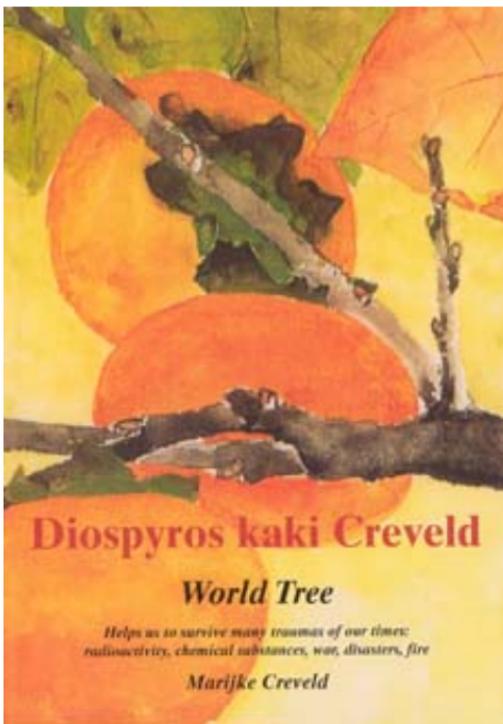

Dream proving has shown the following themes: war, death, fire, serious illnesses, white and black, love, excretion of toxic substances and a change in DNA. One could summarise the effects as helping the patient to survive a trauma caused by war, fire, radioactivity and toxic substances. As of now, I treated over thirty patients with *Diospyros kaki Creveld* with positive results. Moreover it has been used by other therapists and medical practitioners to their satisfaction. The remedy has been prescribed for people who experienced mental and physical complaints caused by a trauma on account of war, disaster and burning, complaints following a fire, problems caused by chemotherapy and radiotherapy and by toxic substances (DDT).

The remedy has a positive effect upon the skin, such as lessening the itch of burns. Good results are also obtained in treating throat, nose and ear complaints, CARA problems and multiple sclerosis.

The patients are often underweight. They suffer of eating disorders, self-mutilation, incest and suicidal tendencies. There are many anxieties, nightmares about war and fire, sleeping problems, depression and a sense of loneliness. The terms 'to survive' and 'unsafe' are often used. Patterns of white and black figure repeatedly in dreams and images.

This book on *Diospyros kaki Creveld* contains the full dream proving, a botanical description, the phytotherapeutic information, its chemical compounds and its symbolism. Moreover you will learn about the cases of ten patients. Two of these saw me about complaints caused by radiotherapy and chemotherapy. Two were fire victims, one of them from Volendam (the homeopath Joke Smith case). Five people suffered of complaints caused by war or old fire trauma. For one patient the black-and-white theme was the occasion to prescribe the *Diospyros kaki Creveld* remedy.

In the second edition about 1900 additions for the repertory are also included. 15 November 2005
